Abstract

Cryptocurrency uses are limited to tech people worldwide because of its underlying technology. Ordinary people can only dream of investing and earning in cryptocurrency as their limited knowledge of technology pushes them behind. But not now. **Our mission is to provide Decentralized, highly secured and user-friendly crypto payment solutions through our well-equipped decentralized financial ecosystem**

Through our products, users can use cryptocurrency just like they use their money. We have created a full-fledged ecosystem where ordinary people can easily buy, sell, exchange, purchase and use cryptocurrency to fulfill their household needs like paying bills, booking a hotel room and sharing a ride.

This whitepaper is solely written for the purpose of providing information regarding our products and services. We have pushed our limits to provide you with the never-seen benefits of using crypto. We are proud to say that all our products are convenient, use modern technology and aim to solve issues like transparency and security of the traditional financial system.

Our entire suite of products is specially designed to be used by ordinary people like you and us. We have a single mission - crypto for everyone. We welcome you to be a part of our community and we highly recommend you to go through the complete document to get a better understanding of our portfolio.

This whitepaper tours you to all the technical aspects of our products and services and enlightens you with the never-ending benefits of using our platform.

About BHYT Pay

Decentralized App

BHYT Pay is a decentralized crypto wallet that supports multiple blockchains, including Ethereum, Polygon, Binance smart chain and Solana etc. BHYT Pay can be downloaded and installed like any other mobile app on your mobile phone. It is available for both iOS and Android users.

BHYT Pay is also going to be available as a browser plugin for Chrome and Mozilla. BHYT Pay is a single-step solution for all your crypto needs. BHYT Pay users can also access various DApps without leaving their comfort room. They can buy, invest, and swap crypto with just a few taps.

Crypto Payments App

With BHYT Pay, sending and receiving crypto is as handy and straightforward as making a mobile payment. It is an app that provides the functionality to send crypto using a mobile number or by scanning a QR code while maintaining privacy and security within the system.

There are over 130+ cryptocurrencies about to list on our platform. Users can send, exchange, and purchase any of the listed cryptocurrencies in a matter of minutes using our app.

Benefits

- **Easy and Convenient:** Get access to your assets as a whole at your fingertips.
- **On-the-Spot Transfer:** Gone are those days when we need to wait for several minutes to complete a crypto transaction. Now send and Receive crypto instantly using our app and receive quick updates of every transaction on your mobile number.
- **Recharge and Pay your Bills in Crypto:** Amazed? Yes, it's true. Users can pay for their electricity bills, gas bills and other bills in crypto only on the BHYT Pay app.
- **Create Multiple Accounts:** BHYT Pay users can create multiple accounts within the app and use them for a specific purpose.

BHYT CHAIN

token is the native token of the BHYT Ecosystem. It is a polygon based token empowering the kingdom.

BHYT SAFE offers a one-stop solution for all your crypto investment needs. BHYT

SAFE is a centralized and decentralized crypto trading platform along with crypto banking features.

Features include Trading, p2p, crypto savings account, Launch Pad, AirDrops, swap, staking of crypto assets.

BHYT SAFE Features:

Trading : Users can easily buy, sell and trade crypto at our website with minimum gas charges.

P2P : BHYT SAFE offers a global Peer-2-Peer trading platform for its users, where they can privately exchange their crypto assets with another without the involvement of any middlemen.

Crypto Savings Account : Users can open a crypto savings account and have the privilege of banking benefits for their crypto portfolio.

LaunchPad : Raise capital for your newborn blockchain project before launching it into the market and get hitched to numerous fabulous investors through BHYT SAFE LaunchPad.

Airdrops : Participate in airdrops on our platform and be the first one to enjoy the fruit of success with us.

Swap : Users can swap their crypto assets from one to another on their fingertips with Multi blockchain Decentralized swap feature

Satking : Users can stake their assets for a period of time and earn staking benefits from them.

Safety is the bottleneck of every Defi protocol in the crypto space today. Apart from many features that every Defi protocol has, BHYT SAFE offers some attractive features to its users that make it incomparable to any other Defi protocol in the crypto era. BHYT SAFE, the name itself, has “SAFE” in it. We strive hard to bring all fantastic features under one umbrella so that you need not roam around other apps while planning to dive into the crypto kingdom.

BHYT SAFE is designed to deliver the best of all Decentralized Finance apps while solving some of the major problems of the Defi space like high slippage, high transaction fees, and accessibility.

BHYT ULTRACHAIN

BHYT ULTRA CHAIN is an open-chain, high-performance, permissionless blockchain. It is designed to provide lightning-speed transactions at an unbelievable gas fee. Ultra Chain is equipped with all tools and techniques required to dive into the whole new world of Decentralized Finance.

With Ultra Chain Network, developers get a best-in-class platform to create and deploy dapps with lower transaction costs, faster transaction speed, and better scalability. Ultrachain provides interoperability and interconnectivity between blockchains without involving any third party creating a more secure, trusted, and big room for developing decentralized apps.

BHYT ULTRA CHAIN is made to be compatible with Ethereum and other networks so as to allow easy integration and development of decentralized apps. BHYT ULTRACHAIN uses a unique scaling solution and powerful consensus algorithm to perform secured and faster online transactions. Ultra Chain supports Metaverse and NFTs too. Developers can create NFTs and games using ultra chain networks to provide users with a real-life experience in a virtual world.

BHYT STORE is a marketplace where users can purchase both physical and virtual goods underneath blockchain technology. Users can shop for various household products, cosmetic products, well-being products, NFT,s and much more from the comfort of their homes. Users from around the world can order from BHYT STORES and can pay in fiat and crypto.

Features of BHYT STORES:

Cost Savings: Payments made through VYNC tokens can save users time and cost and there is no need to go through banking systems to process a transaction which in turn saves time and money.

More Access to Global Customers: Having a single payment system globally is not a given, BHYT STORE's provides more access to customers from around the world by creating a single crypto payment solution, which is easy, fast, and reliable.

Products for All: We sell products of all brands and in all categories. Users can choose their favorite brand-specific product from our store and choose to deliver it to their place or can send it to surprise their loved ones.

BHYT STORES has strived to create a decentralized shopping experience that caters to customers who love crypto. BHYT STORES aims to provide an incredible shopping experience to its users by allowing them to shop anonymously in an easy-to-navigate environment.

Users can make purchases through our BHYT STORES website or can download our app available for android users to get a decentralized shopping experience at their fingertips.
